Weapons

## Items Found

Magic Battery

As soon as you've found a piece of equipment (weapons, accessories, and outfits), write it down in the corresponding box around your character. You can have only one item in each of these categories at a time. Write down all the other items you find too. Keep track of your magic, technology, charisma, and life points. Remember to color in one segment of the magic battery for each energy point you acquire. Once all the segments are filled in, go to panel 412 to finish your quest.
